Spring Facts!

- * The reason there's more daylight during spring is that the earth's axis tilts towards the sun at this time of year.
- * When Spring starts here, Fall is starting across the world in places like Australia and Argentina.
- * Expect to see more baby animals, such as birds, baby cows, and ducklings in the Spring. These animals have their young in the Spring because there is more food available for the little ones.

An option of Fresh Fruit or Fruit Cup and a Choice of Juice and Milk are also offered everyday.
