How Sweet is Your Diet?

Are you careful about how much sugar you eat daily? If not, maybe you should be! Consuming too much sugar can lead to a lot of unwanted problems. Here are a few reasons to be more mindful when choosing a sugary treat over a savory one.

- * **Sugar does not provide you with energy!** It is an empty calorie, so it doesn't add any value to our diet.
- * **Sugar intake can cause cavities!** When it sits on your teeth, sugar causes decay more efficiently than any other food.
- * **Sugar can make you sick!** It doesn't help our body fight off infections properly.
